Something for  
you to think  
about!

## Optional Cloud Based Payroll

We are always looking to make life easier for our clients and in order to do this we have invested in some of the best cloud-based technology on the market.

Would you like to have access to all your payroll and human resource information at the press of a button?

BrightPay Connect provides an online facility that allows you to login to a secure portal so that you can upload HR documents, including employee contracts, disciplinary documents, training material, to mention just a few, manage all employee leave, with the employee calendar, whether it be annual leave, sickness or maternity/paternity leave, as well as access payroll information and print off tailored reports for your accountant.

Employees can also have their own secure login to their personal data, allowing them to download payslips directly to their smart phone or tablet, view important documents that they have been given access to, view their annual leave entitlement, as well as allowing them to request annual leave from their devices.

In essence BrightPay Connect was designed to streamline your Payroll and Human Resource processes.

**If you would like to know  
more call Julie.**

Did you know??

We are now a BACS Bureau!!

And we can provide a fast, secure and easy way to pay employees, subcontractors and HMRC through our BrightPay/Modulr software.

This eliminates the need to create bank files and the manual workload associated with making payments to employees, subcontractors and HMRC.

As you may or may not know, we love to support local charities and select one each month to focus on.

This month JLP's Team are completing 100 Miles for Macmillan Cancer Support. If you would like to support us, any donation would be greatly appreciated and will help Macmillan to support more people affected by cancer. Thank you!
