

Changes to Payrolling of Benefits in Kind

It will become compulsory to report Benefits in Kind via payroll software from April 2027

This change will stop 4 million people from having their Income Tax collected in arrears which means that they will be paying the right tax at the right time. It will make it simpler for employees to understand what they are paying tax on, as the information relating to this will be more accurate and clearer to understand. **It will also mean that most employers will no longer need to complete the P11D forms.** [Click here for more info](#)
